29	Antarctica and Greenland	1	Award 1 mark for both Antarctica and Greenland. Do not accept the Alps or the Himalayas.	2b
30	delicate	1	Award 1 mark for 'delicate'. Do not accept 'feathery'.	2a
31	Acceptable points: • it builds up in layers, year after year • the weight of new snow presses down on the older snow • the snowflakes are crushed together • the air between the snowflakes is squeezed out • it turns into hard, grainy crystals • it becomes solid ice.	2	Award 1 mark for each acceptable point, up to a maximum of 2 marks. Two different points are needed for 2 marks.	2b
32	Acceptable points: • thick ice soaks up some of the other colours in sunlight • so mostly blue light reaches our eyes • because the ice is so dense / thick.	1	Award 1 mark for any acceptable point. Do not accept 'because it is cold' or 'because it reflects the sky'.	2b
33	Acceptable points: • even though it is solid, it can slowly bend / change shape / flow	1	Award 1 mark for any acceptable point about the ice being able to bend or flow slowly. Do not accept answers that say the ice is sweet, sticky to touch or melting.	2g

	• it moves very slowly and stickily, like soft toffee.			
34	Gravity pulls a heavy glacier downhill. — True Meltwater underneath a glacier can help it to slide. — True Most glaciers move quickly enough to watch. — False Crevasses form in the ice at the very bottom of a glacier. — False	1	Award 1 mark for all four correct.	2b
35	Acceptable points: • a river valley is V-shaped, but a glacier valley is U-shaped • a river valley is narrow, but a glacier valley is broad / wide • a glacier valley has a wide, flat floor (a river valley does not) • a glacier valley has steep sides • a glacier valley is deeper, because the ice has scoured away the floor.	2	Award 1 mark for each acceptable difference, up to a maximum of 2 marks. Each point must make a comparison or clearly describe a feature of one valley that the text shows the other does not have. Do not award 2 marks for the same difference expressed twice (e.g. 'V-shaped' and 'pointed at the bottom').	2h
36	glacier → an enormous mass of ice that moves slowly on land crevasse → a deep crack in the surface of the ice erratic → a boulder left far from where it came from meltwater → water from melting ice	1	Award 1 mark for all four correctly matched.	2b
37	Acceptable points: • the ice has gone, but the landscape it shaped is still here • we can still see its effects in the U-shaped valleys, lakes, glens and lochs.	1	Award 1 mark for an answer showing that the ice's effects on the land remain. Do not accept answers that say there is still ice in the UK.	2d
38	Acceptable points: • to see how much the glaciers have changed / shrunk over time • to find out how far glaciers	1	Award 1 mark for any acceptable point about seeing or proving change over time. Do not accept 'because they like old photographs'.	2d

	have pulled back • to provide evidence that glaciers are shrinking.			
39	Acceptable points: • there might not be enough water for their crops in hot, dry summers • their crops could fail / not grow, so there would be less food • they might lose money / struggle to earn a living.	1	Award 1 mark for an answer that links less river water to a problem for crops or farming. Do not accept 'their farms would flood'.	2d
40	Acceptable points (with example evidence): • the writer states it directly ('one of the most powerful forces on our planet') • glaciers grind and wear away solid rock ('scraping and grinding the rock below'; 'they act like giant sandpaper') • glaciers pull rocks out of the ground and carry them ('The glacier plucks these rocks away') • glaciers change the shape of whole valleys ('it scours away the sides and the floor, widening and deepening it'; 'carved into a broad U shape') • glaciers can move enormous boulders a long way ('colossal conveyor belts'; 'sometimes for many miles') • glaciers shaped the landscape of Britain ('it shaped the very ground beneath our feet') • glaciers are huge and heavy ('sometimes hundreds of metres thick'; 'an enormous mass of ice').	3	Award 3 marks for two acceptable points, at least one with evidence. Award 2 marks for two acceptable points with no evidence, or one acceptable point with evidence. Award 1 mark for one acceptable point. Do not accept answers that only say 'because they are big' or 'because they are cold'.	2d
