

Everything SATS — Maths Mock 3

Paper 1: arithmetic

This is an original practice paper written for Everything SATS. It follows the layout and question types of the real Key Stage 2 mathematics test, but it is **not** a real past paper.

36 questions, 40 marks. Put your answer in the box for each question. Long multiplication and long division questions are worth 2 marks: show your method, because you can get 1 mark for a correct method even if the answer is wrong.

In the real test this paper lasts 30 minutes. There is no need to time yourself here — take the time you need.

For the adult: the answers and how to award marks are in the separate **answer booklet** (Maths Mock 3 answers).
